Murtuzaali Surti

Software Engineer

With over 1.5 years of experience, I am a software engineer usually dealing with JavaScript. Well versed in building responsive and elegant web designs, and related frontend/backend frameworks, seeking a full-time role to further improve the skillset while at the same time contribute to the organization as well as the developer community.

Work Experience

Software Engineer

Imriel

May, 2023 - Present

- Working on an enterprise application related to the management of legal entities of a business. Mainly working with Node, NestJS, PostgreSQL and Docker leaning more towards the backend side.
- Re-designed the backend architecture to support storing multiple client data into a single PostgreSQL database instance in a multi-tenant architecture. Tackled massive performance issues due to this change.

SWE Intern

Imriel

Jan, 2023 - May, 2023

- Worked on an Applicant Tracking System (ATS) built with React, Typescript, MUI and Jest as a Frontend Software Engineer.
- Developed an understanding of the Agile methodology in software development.

Creator

Syntackle

Feb, 2022 - Present

- Built a blog from scratch using 11ty with some progressive JS as well as gulp, rollup, and PostCSS which are a part of the build process.
- It's mainly a software development blog covering topics & tutorials related to the web, css, javascript, dev tools, jamstack, serverless and much more. It encourages community engagement by allowing users to contribute content, thus fostering a collaborative environment for knowledge sharing. - syntackle.com

Education

Bachelor of Computer Applications - Navrachana University

July, 2020 - May 2023

Grade: 8.99 (CGPA)

Projects

- **Better** - A code reviewer GitHub action powered by AI.
- **Syntackle -** A developer blog built using a static site generator named 11ty**.**
- **back-to-top** - A web component.
- **rssed** - A collection of RSS feeds of hundreds of independent developers as well as publications which updates itself everyday.
- **Wavy** - A JavaScript library which allows you to animate infinite words in an infinite loop in a modern wavy way!
- **Contact Card** - A digital business contact card generator which is quick to share.

Talks & Achievements

- AI Hackathon Winner at Imriel
- The voice of simplicity - What the JAM podcast (Featured Talk)
- Building Projects & Learning Mindset as a Developer - Ganesh Patil's Podcast (Featured Talk)
- Wrote for developer publications such as freeCodeCamp and CSS Tricks.
- Top 7 Author Of the Week on DEV.to
- Gave a talk at HacktoberFest 2021 at Navrachana University.
